ZHUMELL 20-60X80MM ANGLED SPOTTING SCOPE

**zhumell**  
your world within reach

Zhumell customers know that there are plenty of ways to experience the world. They also understand that, however you choose to explore it, the best experience is one that fully immerses you in the world's most striking details.

That's where our optics products come in. We strive to put high-performance products in the hands of our customers so that they can experience the world up close, with their own eyes.

With Zhumell, you get field-tested, precision-crafted optics at the best possible value. So even if you're just starting out as an amateur birder or astronomer, you don't have to settle for entry-level products. Zhumell customers enjoy life's pursuits, hobbies, and adventures in rich, colorful detail- the kind of detail that only high-performance optics can produce.

At Zhumell, we design our binoculars, telescopes, and spotting scopes for discerning, price-conscious users who are uncompromising on quality. If you're looking for accessibly priced optics that will bring your world within reach, you're looking for Zhumell.

**Enjoy your scope.**

# CARING FOR YOUR ZHUMELL SPOTTING SCOPE

Zhumell products are precision optical instruments designed for ease of use and versatility in their application. Your Zhumell spotting scope is built with the highest-quality optics and top-notch construction to provide years of reliable functionality, but will require proper care.

If, after reading this manual, you still have questions about your Zhumell spotting scope, please visit <http://www.zhumell.com> for more helpful tips and contact information. Our customer service representatives are available to address any problems you encounter with your spotting scope. Please let us know about your experiences; we would like to hear your feedback.

**Enjoy your Zhumell.**

# CARING FOR YOUR ZHUMELL SPOTTING SCOPE

## WARNINGS

- Never look at the sun through your spotting scope. Doing so can cause permanent damage to your eyes, including blindness.
- Always be sure your spotting scope is properly held, secured, or stored.
- While viewing objects at distance, be sure to be aware of what's going on around you to prevent harm to yourself or to your equipment.

## CARE

- When cleaning optical lenses, use included lens cloth or other soft, lint-free cloth. Remove any visible dust or debris by blowing or using a lens brush.
- To remove smudges or prints, rub gently in a circular motion with a lens cloth or other soft cotton cloth. Coarse fabric can scratch your lenses.
- If further cleaning is required, use lens cleaner or diluted isopropyl alcohol - other chemicals may damage your equipment. Always apply solution to a lens cloth first, never directly to the lens.
- Store spotting scope in a moisture-free area. Be sure to dry your equipment before packing it up.
- Always use lens caps when spotting scope is not in use.
- Always store your spotting scope in a protective case to avoid accidental damage.

# LEGEND FOR YOUR ZHUMELL SPOTTING SCOPE

# USING YOUR ZHUMELL SPOTTING SCOPE

To get the most from your Zhumell spotting scope, be sure to understand and properly use these features. Doing so will lead to the most satisfying experience possible from your new optical equipment.

## SETTING MAGNIFICATION

To set the eyepiece magnification, twist the Eyepiece Zoom between the ranges of magnification on your scope. The numbers and arrow on the eyepiece will show the current magnification setting.

## FOCUSING

To focus your spotting scope on an object, begin by setting the Eyepiece Zoom to the lowest magnification. Slowly turn the Focus Knob on the side of the spotting scope body until the image in the eyepiece becomes clear. You may need to make adjustments to the focus as you zoom in on an object.

## ATTACHING TO A TRIPOD

Your spotting scope is designed to fit directly onto the quick-plate systems commonly found on optical and photographic tripods. You need only to slide the spotting scope mount into the mechanism of this type of tripod. Additionally, a traditional tripod screw can be used to screw into the bottom of the tripod mount on your spotting scope.

## MOUNTING A CAMERA

Your Zhumell spotting scope will work in conjunction with many digital and SLR cameras and is compatible with a variety of adapters. Follow the instructions on your camera adapter to use this feature.

## WARRANTY

Zhumell products are designed to provide you with the highest quality and best value available, which is why we're proud to offer a world-class warranty on all of our products. All Zhumell monoculars and spotting scopes are covered by a 3-year no-fault warranty.

To obtain warranty service, the damaged equipment must be returned to Zhumell. Our Customer Care associates will be happy to assist you in completing this return to get your Zhumell in working order as quickly as possible. There is a \$15 surcharge associated with warranty returns to cover return shipping and handling.

For more information, contact information, and to download the Zhumell Warranty Return Form, please visit <http://www.zhumell.com>.
