**PIRATE SPYGLASS**

BRING 'EM NEAR PIRATE SPYGLASS TELESCOPE

**zhumell**  
your world within reach

Zhumell customers know that there are plenty of ways to experience the world. They also understand that, however you choose to explore it, the best experience is one that fully immerses you in the world's most striking details.

That's where our optics products come in. We strive to put high-performance products in the hands of our customers so that they can experience the world up close, with their own eyes.

With Zhumell, you get field-tested, precision-crafted optics at the best possible value. So even if you're just starting out as an amateur birder or astronomer, you don't have to settle for entry-level products. Zhumell customers enjoy life's pursuits, hobbies, and adventures in rich, colorful detail- the kind of detail that only high-performance optics can produce.

At Zhumell, we design our binoculars, telescopes, and spotting scopes for discerning, price-conscious users who are uncompromising on quality. If you're looking for accessibly priced optics that will bring your world within reach, you're looking for Zhumell.

**Enjoy the adventure.**

## ENJOYING YOUR **ZHUMELL PIRATE SPYGLASS**

# CARING FOR YOUR ZHUMELL PIRATE SPYGLASS

Zhumell telescopes are precision astronomical instruments designed for ease of use and versatility in their application. Your Zhumell pirate spyglass is built with the highest-quality optics and top-notch construction to provide years of reliable functionality, but will require proper care.

If, after reading this manual, you still have questions about your Zhumell telescope, please visit <http://www.zhumell.com> for more helpful tips and contact information. Our customer service representatives will be able to address any problems you encounter with your telescope. Please let us know about your experiences; we would like to hear your feedback.

**Enjoy your Zhumell.**

# CARING FOR YOUR ZHUMELL PIRATE SPYGLASS

## WARNINGS

- Do not use telescope to look at the sun. Doing so will cause permanent and irreversible eye damage.
- Do not attempt to focus the telescope unless it is in the fully extended position.
- Do not drop or shake your telescope as doing so may damage the optics or harm you or the people around you.
- While viewing objects at distance, be sure to be aware of what's going on around you to prevent harm to yourself and your spyglass.

# CARING FOR YOUR ZHUMELL PIRATE SPYGLASS

## CARE

- When wiping the lenses, use included lens cloth or other soft, lint-free cloth. Remove any visible dust or debris by blowing or using a lens brush.
- To remove smudges or prints, rub gently in a circular motion with a lens cloth or other soft cotton cloth. Coarse fabric can scratch your lenses.
- If further cleaning is required, use lens cleaner or diluted isopropyl alcohol - other chemicals may damage your equipment. Always apply solution to a lens cloth first, never directly to the lens.
- When not in use, store your telescope in a protective case and keep in a moisture-free area.

# USING YOUR ZHUMELL PIRATE SPYGLASS

1. Your telescope begins in the collapsed position. While this is great for storage, the telescope must be fully extended to become useful as an optical instrument.
2. To extend your telescope, simply pull gently on both the large and small end at the same time. When the telescope stops extending at 13 inches, it is ready to use.
3. To focus on an object, point your telescope - fully extended - at what you would like to view. While looking through the smaller end, turn the raised ring on the largest telescope barrel until the object in view becomes clear.
4. If you choose to view another object at another distance, you will need to adjust the focus on your telescope to see it clearly.
5. When finished, return the telescope to the collapsed position by pushing gently on both the large and small ends until all the barrels are inside the largest one. Place the telescope inside the leather case for storage.

## **WARRANTY**

Zhumell products are designed to provide you with the highest quality and best value available, which is why we're proud to offer a world-class warranty on all of our products. All Zhumell telescopes are covered by a 3-year no-fault warranty.

To obtain warranty service, the damaged equipment must be returned to Zhumell. Our Customer Care associates will be happy to assist you in completing this return to get your Zhumell in working order as quickly as possible. There is a \$25 surcharge associated with warranty returns to cover return shipping and handling.

For more information, contact information, and to download the Zhumell Warranty Return Form, please visit <http://www.zhumell.com>.
